Model vrat in ličnic / Door/drawer fronts model

Naravni les z lepoto svoje naravne strukture in barve povsod, kjer ga uporabimo, pripomore k toplini in polnosti izdelka. Struktura lesa je enkratna in neponovljiva, zato je obdelana površina vsakič drugačna, tako rekoč unikatna. Manjše barvne razlike zato niso izključene.

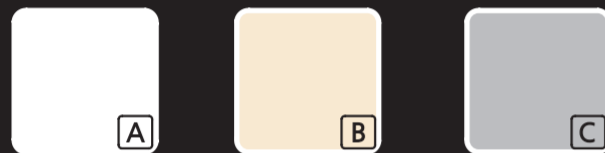

Natural wood, wherever used, contributes to the warmth and fullness of a product with the beauty of its natural structure and colour. Since the structure of wood is so unique and unrepeatable, the cultivated surface is never the same. Smaller colour differences are therefore not excluded.
